EXPERIENCE

- **Indian Institute of Science (IISc)** *June 2023 - Present*
  Technical Assistant Bengaluru, India
  – Designed and developed various official websites for the ICWaR, IISc, using Typescript and Angular
  – Providing assistance in managing the operation of HPC clusters
  – Hardware Management and Software Troubleshooting

PROJECTS

- **Exam Portal**

  Developed an Exam Portal application using Java, APIs, Angular, and MySQL. Implemented features such as full-screen mode, timer, screen recording prevention, tab switch prevention, and automated submission. Enhanced efficiency and security for professors managing quizzes and students completing exams, optimizing the academic experience.

- **Study Abroad**

  This project leverages the MERN stack to optimize the selection of foreign institutions based on students' academic achievements and exam scores. By integrating MongoDB for flexible data storage, Express.js for robust server-side logic, React for dynamic and responsive user interfaces, and Node.js for scalable backend operations, the platform facilitates seamless discovery and alignment with suitable colleges abroad.

- **E-Job Portal**

  Developed a PHP-based Web portal with a MySQL database for managing job applications which incorporated features to create new forms and manage the entire procedure from submitting an application to forwarding and applying between various companies.
